AI ORIENTATION PROGRAMME – SHORT REPORT

Bhagwanti Education Centre Degree College | Department of BCA | 05 August 2026

SUMMARY

Bhagwanti Education Centre Degree College organized an Artificial Intelligence (AI) Orientation Programme for students of BCA and BBA. The session was delivered by **Mr. Tarun Mishra** under the guidance of **Ms. Nisha Gautam**, HOD (BCA), and coordinated by **Ms. Aastha Mishra**, Assistant Professor. The programme introduced students to AI, Machine Learning, automation and Generative AI, along with their applications in healthcare, finance, education, business and other sectors.

PROGRAMME HIGHLIGHTS

- Live introduction to AI and emerging technologies.
- Demonstration of the AI Learning Platform and registration process.
- Guidance on learning modules, online assessment and virtual certification.
- Interactive discussion encouraging skill development, problem-solving and continuous learning.

LEARNING OUTCOMES

Students gained an understanding of AI fundamentals and real-world applications, explored AI-based career opportunities, learned to navigate the online learning platform, and understood the process of completing modules and assessments for virtual certification. The orientation also emphasized the importance of continuous skill development for future employment.

CONCLUSION

The AI Orientation Programme successfully created awareness about the growing role of Artificial Intelligence and encouraged students to begin structured AI learning. The active participation of BCA and BBA students made the session informative, practical and engaging, helping bridge the gap between academic learning and evolving industry requirements.
